CPE 314 — Software Design & Software Design Laboratory

Week 11 — Project Design Document Checklist

Design Document Progress | Worth 25 of this week's 100 points

This checklist verifies the final week's contribution to the team's cumulative Project Design Document — worth 25 of the 100 points on Week11_Checklist.docx as the "Design Document Progress" line item. Week 11 adds the last two content sections, but most of this week's points are weighted toward the final-compilation quality checks, since turning four weeks of incremental drafts into one polished deliverable is this week's real work — see Project_Design_Document_Template.docx for the master structure being finalized.

Design Document Progress Checklist — Week 11 (Final Compilation)

#	Required Section/Item	What's Being Checked	Max Points	Points Awarded
1	Section 8 — Testing Summary Written	Section 8 summarizes the JUnit test suite: how many tests, what they cover, and at least one meaningful edge case per tested class.	3	
2	Section 9 — Individual Contributions Written	Section 9 lists what each member specifically built or owned, referencing their git commit history.	3	
3	Title Page Finalized	Title page shows the real, final project title and the full list of member names — no remaining placeholder text.	3	
4	Table of Contents Updated	The Table of Contents field has been updated/generated in Word (right-click > Update Field) so it reflects the final section list and page numbers.	3	
5	Weeks 8-10 Sections Present & Polished	All sections from Weeks 8-10 (1 through 7) are present, revised, and	6	

		polished — not left as rough drafts from their original week.		
6	Consistent Heading Styles & Formatting	Heading levels, fonts, and spacing are consistent throughout the compiled document — no leftover mismatched styles from different weeks/authors.	4	
7	Page Numbers Correct	Page numbers are present and correct throughout the final compiled document.	3	
	TOTAL		25	

Items 3-7 above (13 of the 25 points) are the final-compilation quality checks — these carry the most weight this week because this is the version of the document that becomes the team's graded final deliverable.
