CPE 314 — Software Design & Software Design Laboratory

Week 9 — Project Design Document Checklist

Design Document Progress | Worth 25 of this week's 100 points

This checklist verifies this week's contribution to the team's cumulative Project Design Document — worth 25 of the 100 points on Week09_Checklist.docx as the "Design Document Progress" line item. By the end of Week 9, the document should include a written System Architecture & OOD section and a finalized Data Model & Database Design section, building on the Week 8 sections already in place.

Design Document Progress Checklist — Week 9

#	Required Section/Item	What's Being Checked	Max Points	Points Awarded
1	Section 3 — Class Hierarchy Diagram/Description	Section 3 includes a diagram or clear textual description of the class hierarchy (abstract class/interface + concrete subclasses).	7	
2	Section 3 — SRP Justification	Section 3 explains, for each class in the hierarchy, how it follows the Single Responsibility Principle — not just a bare class list.	6	
3	Section 4 — Finalized ERD	Section 4 includes the finalized entity-relationship diagram (3+ entities, correct cardinality notation on at least one relationship), superseding the Week 8 sketch.	7	
4	Section 4 — Schema Description	Section 4 includes the actual SQLite schema (CREATE TABLE statements or an equivalent schema table) matching the finalized ERD.	5	
	TOTAL		25
