CPE 314 — Software Design & Software Design Laboratory

Week 10 — Project Design Document Checklist

Design Document Progress | Worth 25 of this week's 100 points

This checklist verifies this week's contribution to the team's cumulative Project Design Document — worth 25 of the 100 points on Week10_Checklist.docx as the "Design Document Progress" line item. By the end of Week 10, the document should include written sections for API Integration Design, Concurrency Design, and Data Mining & Visualization Design, matching the full feature set implemented for Milestone 2.

Design Document Progress Checklist — Week 10

#	Required Section/Item	What's Being Checked	Max Points	Points Awarded
1	Section 5 — API Integration Design Written	Section 5 names the public API consumed, describes the endpoint(s) called, the shape of the JSON response, and how that data is parsed and used meaningfully in the app.	8	
2	Section 6 — Concurrency Design Written	Section 6 identifies the long-running operation(s) on a background thread, explains the threading approach used, and describes how the UI stays responsive.	8	
3	Section 7 — Data Mining & Visualization Design Written	Section 7 describes the aggregation/frequency-analysis step and the chart(s) used to visualize the result, including why that chart type was chosen.	9	
	TOTAL		25
